

## CORONAVIRUS CONFIRM - Details

### Comments from the Doctor's Office

Your COVID testing was negative. Please continue to follow social distancing techniques recommended by the CDC and wear a mask in public. Contact your primary physician if you have questions or your condition worsens. If this test was done due to the presence of symptoms: You may discontinue home isolation under the following conditions: At least 1 days (24 hours) have passed since recovery defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms (e.g., cough, shortness of breath); However, you should continue to monitor symptoms closely and reduce contact with others for the next 7-10 days.

### Study Result

#### Narrative

002194280

### Component Results

Component	Your Value	Standard Range
Coronavirus (SARS-CoV-2) RNA	<b>Your Value NEGATIVE</b>	<i>Standard Range NEGATIVE</i>

The specimen is NEGATIVE for SARS-CoV-2, the coronavirus associated with COVID-19. A negative result does not rule out the possibility of COVID-19 and should not be used as the sole basis for patient management decisions.

This test has been authorized by The FDA under an Emergency Use Authorization(EUA) for use by authorized laboratories.

You can review the FAQ Sheet for health care providers and patients on our website:
